Weekly Intelligencer.

Copies of the WEEKLY INTELLIGENCER in wrappers ready for mailing can be had at the business office, corner of Front and Market Streets, every Thursday. Price 5 cents.

Daily Intelligencer.

RELEVILLE, MONDAY, NOV. 1.

An Early Session.

The Mail in its issue of Saturday forebodes an early session of the Dominion Parliament. It says: "It is by no means improbable that Parliament will be summoned at an early date for the regular session. The demand of a special session was probably deemed far too serious an item to be included for the discussion of even so important matter as the Pacific Railway contract; but as the contract may be considered as now concluded to all intents and purposes, the Government no doubt feel disposed to meet the wishes of the country for an early meeting of Parliament as the public business will admit of. We may, therefore, look for a session beginning before Christmas, and continuing, after a short adjournment for the holidays, till the business is concluded. We do not imagine that the session will this year be a very long one. It has been inevitable that the Government should be prevented from getting any measure ready for the consideration of the House. For our own part we shall welcome the early session very cordially. The country would doubtless have approved of an extra session had the negotiations been concluded at an earlier date, but as the session is so far advanced, it seems needless to incur a large expense to save but a very few weeks of time."

The Marmora Gold Mines.

In other columns will be found the text of a series of articles, copied from the *Engineering and Mining Journal* of New York, on the subject of the Marmora gold mines. The article in question is from the pen of Mr. Richard P. Rothwell, mining engineer, the editor of the publication in question, and as the information therein contained is founded on practical and exhaustive tests of the ores of the properties more particularly described, its value is very great. The effect of so favorable a report appearing in a journal of high respectability and large influence such as that conducted by Mr. Rothwell cannot fail to be of a character highly favorable to the district. Capitalists who have hitherto been uncertain of the value of the gold deposit in Marmora will surely be invited to visit and examine the districts, and it is reasonable to conclude, to invest in gold mining there and carry on operations upon a large scale. We trust that such may be the case, and that the region may become at an early day one of the greatest gold producing districts in the world.

What with the gold mines of Marmora, the iron mines of Madoc, and the vast deposits of mineral wealth of other descriptions known to exist there, the rear townships of the Hastings district seem to have a bright future before them. The two things necessary to ensure the development of the country are the extension of the railway from Madoc and the construction of the Murray Canal, and both these enterprises we hope to see carried to completion in the near future.

Political Notes.

The chief organ of the Opposition tries to make a point by saying: "The protectionist organs are at loggerheads over the effects of the duty on grain. The Belleville *Intelligencer* thinks that nobody but a fool would expect the duty on barley to give the farmer an increased price for what he has to sell, and the Peterborough *Review* fills the air by saying that the duty on wheat enhances its price. We turn the *Review* over to the tender mercies of the organ of the Minister of Customs." The above is incorrect. The *Intelligencer* never used language which would convey the idea that the duty on grain does not enhance the price of that article. As to barley which we import in very little and export much, the duty can be said to benefit it. But that wheat, of which we formerly imported a large quantity, has been increased in price by the duty, we have previously shown. Rye has also been improved in price, as we show that U. S. rye is shut out is largely used in distilling. Thus both the *Intelligencer* and the *Review* are right.

PROMOTED.—Col. Irvine, Assistant Commissioner of the North-West Mounted Police force, has been promoted to the position of Commissioner made vacant by the retirement of Col. Macleod.

A TRAILING SHIP.—The Mail says:—"It is learned that at the solicitation of the Governor-General, who has taken a great personal interest in the matter, the British Government have placed a war ship at the disposal of the Canadian Government, free of all expense, to be used for such purposes in regard to the education and training of sailors as may be determined on."

Correspondence.

Whilst correspondence will be accorded space for the expression of their views on topics of public interest, it must be in all cases understood that the views so expressed are simply those of the correspondents themselves.

To the Editor of the Intelligencer.

In the INTELLIGENCER of October 28th, under the heading of "The Provincial Fair and Agricultural Shows Generally," the following paragraph occurs: "The same remarks apply to Township fairs, not a few of which have degenerated into a sort of family party, where the same people bring the same old articles year after year as regularly as the seasons come around, and are as regularly awarded prizes for them. An instance of this sort of thing occurred at a fair held not a thousand miles from Shannonville, where a quilt was placed on exhibition which had seen as much service that it had been re-lined for the annual show."

Any person reading the above would naturally infer that the judges on quilts at the Township shows had awarded a prize to one that was old and worn.

Now this was not the case. There was but one prize awarded to quilts and that was given to a new one that had never been on exhibition before.

In justice to the Judges and the Board of Directors, I would request you to give this a place in next week's paper, and oblige Yours truly,

CHARLES ANDERSON,
Sec'y Township Agt's Society.

[EDITOR'S NOTE.—Such a quilt as is above referred to was undoubtedly shown, but the Judges did their duty in passing it over.]

Cabinet Changes.

The Mail of to-day has the following in reference to the Cabinet changes:—"The elevation of M. Baby to the Bench and the resignation of M. Macdonald have deprived the Government and the country of the services of two able and popular gentlemen in positions which they were eminently fitted to fill. M. Baby will make an excellent judge, and thus in another capacity his services will be retained for the public; but the service of the Island Revenue will miss a Minister who was, we believe, one of the most capable and firm administrators that has ever filled the position. It is understood that the places of the two gentlemen mentioned will be filled by M. M. Chaplain and Caron. In both cases the public generally will be pretty sure to approve the selection. Both are young men and capable lawyers. M. Chaplain is an administrator of proved capacity in the difficult business of the Province of Quebec, an organ unsupervised by any one in public life, and a worker of consummate industry. M. Caron brings to the Cabinet the might of an honored name, a traditional familiarity with the questions of public life, and a proved faithfulness to the traditions and policy of the Conservative party. Personal popularity both in a large degree command; and both are enthusiasts in the business of politics."

A NEW METHOD OF TREATMENT.—In an action for seduction tried at the Essex Assizes Mr. Justice Armour made the following remark to the jury that the policy hitherto pursued by judges in such cases of directing the jury to bring in light verdicts had failed of its object, namely to reduce the number of such actions, and he thought it was time to try the effect of heavier verdicts. The jury accordingly brought in a verdict for \$2,000 damages.

AIR ENVOIES.—Notice is given in the *Canada Gazette* that application will be made to the Parliament of Canada at its next session for an act to incorporate the City Railway Company for the purpose of building, equipping and operating single and double track railways with air engines (compressed air) as the motive power for the conveyance of passengers in the streets and suburbs of the cities of Montreal, Toronto, and elsewhere in Canada.

ONE GOOD TURN DESERVES ANOTHER.—The Minister of Education having issued a circular to municipal corporations, school boards, and inspectors, pointing out the necessity of providing efficient school accommodation, the *Brantford Telegram* suggests that it will now be in order for the instructed to turn around and point out to Mr. Crooks the necessity that exists for the appointment of a practical Minister of Education.

A LARGE CONCERN.—The Montreal *Witness* says:—"On Thursday a dinner was given in Ottawa on the occasion of the departure of Mr. Speden, the editor of the *New Dominion*, to Bermuda for his health. A gentleman who was present stated that the meeting was rather antiseptic with a statement made by Mr. S. W. Foster on the occasion to the effect that the Grand Trunk spent \$4,000,000 annually in wages and employed ten thousand persons in all, and was more astonished when told that \$1,000,000 of English money had been sent on this continent by the Grand Trunk Railway Company. It was stated also on this occasion that the Grand Trunk paid \$20,000 annually in taxes to this city."

PLENTY OF MONEY.—The accumulation of money in the Banks has been so enormous, and the difficulty of finding profitable investment for it has been so great, that they have been compelled to reduce the rate of interest to depositors to 3 per cent. They have also decided not to allow interest on current accounts. Circulars that effect have been issued by the local Banks on Saturday. In view of this fact, we hope to see some of this surplus money seek investment in manufactures in this vicinity. There are a number of industries that might be established here, which under careful and prudent management would net at least from 8 to 12 per cent to the investor.

THE MARINE-PRINCE SWAP.—The *Reform* journal are "speaking out" on the Marine-Prince Swap, in terms by no means complimentary to the Ontario Government. The *Elora Express*, (Reform) declares that in the county of Wellington "there is not the second opinion as to the folly and impropriety of this course, and we have not yet seen the first man who defends the absurdity, or regards the foisting of Captain Prince upon the people of this section as other than a direct insult to an intelligent community." It adds this significant warning:—"We have no hesitation in saying that there are elections in South Wellington to take place now, the Government nominees would be badly beaten, and that the constituency would go over to the enemy, because of the apathy and coolness, if not active opposition, of prominent Government supporters."

Mr. Thos. Fraser, Newwalk Village, N. B., desires to say that a few weeks ago a loaded wagon went over his leg, causing a severe sprain, was confined to bed, and would have been there yet if he had not used Dow's St. George Oil. A couple of bottles made his leg perfectly well.

News Condensed.

—November 23rd is to be Thanksgiving Day in the United States.
—Hon. Alex. Morris refused \$15,000 for a lot in the City of Winnipeg.
—A Guelph farmer has been awindled by two confidence men at Hamilton.
—The exports from Picton for the quarter ending Sept. 30th amounted to \$525,884.51.
—The Pink Jubilee Singers (colored) were repulsed from the Teumess House, London.
—St. John city bonds sold, at auction on Saturday, went as high as 6 per cent. above par.
—Fifty-five carloads of sugar were shipped to Montreal and Montreal from Halifax last week.
—William Cunard, head of the Cunard line, and his son Ernest arrived at Halifax on Saturday.
—Saturday was the eighty-first anniversary of the birth of Mgr. Bourget, lately Bishop of Montreal.

—It is reported that the Czar is in such a low state that his death may be expected at any moment.
—Mr. Dyre Platt, an old and respected resident of Picton, died on the 23rd in the 68th year of his age.
—Mount Vesuvius is still in a state of active eruption, and streams of lava are flowing down its western slopes.
—Several night schools are announced to be opened this evening under the auspices of the Toronto Public School Board.
—Lord George and Lady Campbell are coming to Canada to spend the winter with His Excellency the Governor-General.
—Jesse Thompson, bill discounter, of Toronto, has disappeared rather abruptly. He left behind a bad reputation and large outstanding liabilities.

—Sir A. T. Galt says there is no truth in the rumor that he is to enter the Dominion Cabinet. He will sail from New York for England next Saturday.
—All of Gough's lectures in Canada have been attended by the present Mr. Gough has been suddenly called home on business connected with his family.

—In five actual working days the *Armstrong* at Brockville has landed into the United States 142 cars, carrying 5,400 sheep, 20 horses and a large quantity of hop poles, lumber and ore.

—At the school election at Saratoga, N. Y., three women were elected members of the Board of Education. Three men ran against them, but the women were chosen by a vote of 101 majority.
—Dr. James D. Cannon, M.P., has been appointed Minister of Agriculture at Ottawa for the adjustment of the Province's differences with the Dominion Government in connection with the Equinault and Naamagouan railway.
—A proclamation signed by nine magistrates prohibits the meetings announced to be held at Duggan's in the first week in November. This sudden decision is owing to a report that ten thousand Orangemen would interfere with the meeting.

—George Munro, a native of Nova Scotia, and a well-known and wealthy publisher of New York, has signified his intention of giving fifty thousand dollars to endow a chair of Irish in Dalhousie College, Halifax. This will make his gifts to Dalhousie aggregate \$110,000, the greatest gift ever made by a native Nova Scotian.

—Last Wednesday an old man aged about eighty years, called, stayed from his home at Whitby and has not since returned. He was in his dotage and subject to fits. Diligent search has been made for him ever since, but without success. He was last seen at half-past five on Monday evening near Lynde's creek marsh, and it is feared that he is drowned. He has been a resident of Whitby for over thirty years.

GAZETTED.—The *Canada Gazette* of the 30th ult. contains the appointment of the Hon. L. E. G. Baby as a judge in the Superior Court of the Province of Quebec vice Poitras.

CREDIT VALLEY RAILWAY.—It has been learned on good authority that a change has taken place in the directorate of the Credit Valley Railway; Messrs. C. J. Campbell, Robert Elliott, John MacNabb, and Angus Morrison having retired, and Messrs. E. B. Oaler, P. D. Conger, C. Barnes and John Burns having been elected in their place.

UPS AND DOWNS.—Among the passengers on board the *America* was the wife of Abraham Lincoln. It is a curious fact, that while an ovation was being tendered Sara Bernhardt, the wife of the martyr President, walked the crowded unheeded, a gray, faded woman, jostled and pushed by Americans crowding to catch a glimpse of the French actress.

GRAND TRUNK CAR WORKS.—The new additions to the building of the Grand Trunk car department in Montreal are all working order, and no less than a hundred box cars are being turned out of the shops weekly. In the locomotive construction shop there are at present some fifty locomotives all in various stages of construction, one of which will be turned out completed each week.

THE GREAT GALE.—Reports are still coming to hand of losses by the great gale of last week in northern Europe. It is said that to face such a list of disasters at sea, and as might be expected, the excitement among the fraternity of Liverpool runs very high. To make matters worse, the entire year has proved unfavorable for the marine insurance business, and this crowning batch of disasters has capped the climax.

RUMORS DENIED.—The Mail has the following semi-official announcements: "The statement that Sir Alexander Galt would not be received in England for social reasons is untrue. It is likewise untrue that he will return to England, but will remain to fill the office of Finance Minister. There will be no change in the Finance Ministry. All the rumors as to a renewed visit of ministers to England are incorrect. There is no intention on the part of ministers of going to England again this year, or next year either, for money or any other purpose at present within the knowledge of the Ministry."

Mr. Thos. Fraser, Newwalk Village, N. B., desires to say that a few weeks ago a loaded wagon went over his leg, causing a severe sprain, was confined to bed, and would have been there yet if he had not used Dow's St. George Oil. A couple of bottles made his leg perfectly well.

Stratford's Progress.

(London Free Press, Oct. 30th.)

This flourishing town has now about 9,000 inhabitants, hence only requires 1,000 more to be a city. It is improving rapidly, and several fine blocks of buildings have been erected this summer, notably those by Horne, Halliday, Gruber, and Gibson. Many of the stores have plate glass fronts, and would be a credit to any city. Outdoors, the principal street, is a fine broad thoroughfare. Stratford is indebted to the extensive car works and locomotive shops of the Grand Trunk Railway for its rapid increase. The Company give employment to about 500 men and over \$200,000 are disbursed monthly for wages. The car shops are full of keels, and the men are working on full time. They seem to take a pride in keeping the shops and surrounding grounds in the best of order, and the visitor is delighted with the evidence of good taste displayed on every side. A handsome building has been erected for a Library Institute, which is supported by a voluntary contribution of 100 per cent from each employee. The Institute comprises a spacious lecture room, and a well stocked library, with a librarian constantly attending. The reading room contains all the principal papers of the Dominion. Mr. Harry Roberts, the head of the locomotive works here, has been untiring in his efforts to promote the intellectual welfare of the men, and mainly through his exertions the magnificent sum of one thousand dollars was donated to the Institute. Teresa Carreno at the Opening
of the Queen's Music Hall in
Montreal.

[illegible]

gifted artist in a more extended performance which would give the music-loving comm-

by an opportunity of judging the powers, both of her and the instrument, in rendering the lofty creations of the great masters. This opportunity the recital on Saturday afternoon afforded, and we are bound to say that no musical treat has seldom been presented to an audience. The hall, perfect in its acoustic arrangements, conveyed to the attentive ears of the vast audience the most minute and delicate touches; so soft and sweet, and yet powerful, were the tones brought out, that such times the enraptured audience absolutely held their breath until the swell of the grand forte would bring it up, as if ten-twenty whole orchestra of instruments were burst into one grand harmonious chord. During the performance of this, J. J. P. was

Grand Fantasia on "Rasputin,"—the magnificent instrument fairly trembled under the fire.

It is born, if anywhere, above and beyond the elements, the Weber piano asserts its power.

Surely the New York Times estimated correctly when it stated that the grand achievements of Albert Weber reflected more on the character of the man than the Astoria, the Stewart, or the Vanderbilt with all their wealth could ever do. It is not alone for noble pianos the name of Weber is rare. It brings out, ennobles, and sustains your sense of a reality and a nobility and heartliness that had won for the world and gratitude. And it is a fact worth to note that the pianos of Weber are now almost exclusively used by the leading pianists in every great hall in European and American cities. The possession of so fine an instrument is an additional attraction to this beautiful home.

CITY ASSESSMENT
1881.
NOTICE.

The Court of Revision

To hear and determine appeals against the Assessment for the year 1881, will meet in the Police Court Building, as follows, and will take up the appeals against the Assessment of the several Wards in the following order:

First Ward—Thursday, the 25th October, at 10 o'clock.

Second Ward—Thursday, the 27th October, at 10 o'clock.

Third Ward—Thursday, the 29th October, at 10 o'clock.

Fourth Ward—Thursday, the 31st October, at 10 o'clock.

Fifth Ward—Thursday, the 2nd Nov., at 10 o'clock.

Sixth Ward—Thursday, the 3rd Nov., at 10 o'clock.

Seventh Ward—Thursday, the 4th Nov., at 10 o'clock.

Eighth Ward—Thursday, the 5th Nov., at 10 o'clock.

Ninth Ward—Thursday, the 6th Nov., at 10 o'clock.

Tenth Ward—Thursday, the 7th Nov., at 10 o'clock.

Eleventh Ward—Thursday, the 8th Nov., at 10 o'clock.

Twelfth Ward—Thursday, the 9th Nov., at 10 o'clock.

Thirteenth Ward—Thursday, the 10th Nov., at 10 o'clock.

Fourteenth Ward—Thursday, the 11th Nov., at 10 o'clock.

Fifteenth Ward—Thursday, the 12th Nov., at 10 o'clock.

Sixteenth Ward—Thursday, the 13th Nov., at 10 o'clock.

Seventeenth Ward—Thursday, the 14th Nov., at 10 o'clock.

Eighteenth Ward—Thursday, the 15th Nov., at 10 o'clock.

Nineteenth Ward—Thursday, the 16th Nov., at 10 o'clock.

Twentieth Ward—Thursday, the 17th Nov., at 10 o'clock.

Twenty-first Ward—Thursday, the 18th Nov., at 10 o'clock.

Twenty-second Ward—Thursday, the 19th Nov., at 10 o'clock.

Twenty-third Ward—Thursday, the 20th Nov., at 10 o'clock.

Twenty-fourth Ward—Thursday, the 21st Nov., at 10 o'clock.

Twenty-fifth Ward—Thursday, the 22nd Nov., at 10 o'clock.

Twenty-sixth Ward—Thursday, the 23rd Nov., at 10 o'clock.

Twenty-seventh Ward—Thursday, the 24th Nov., at 10 o'clock.

Twenty-eighth Ward—Thursday, the 25th Nov., at 10 o'clock.

Twenty-ninth Ward—Thursday, the 26th Nov., at 10 o'clock.

Thirtieth Ward—Thursday, the 27th Nov., at 10 o'clock.

Thirty-first Ward—Thursday, the 28th Nov., at 10 o'clock.

Thirty-second Ward—Thursday, the 29th Nov., at 10 o'clock.

Thirty-third Ward—Thursday, the 30th Nov., at 10 o'clock.

Thirty-fourth Ward—Thursday, the 1st Dec., at 10 o'clock.

Thirty-fifth Ward—Thursday, the 2nd Dec., at 10 o'clock.

Thirty-sixth Ward—Thursday, the 3rd Dec., at 10 o'clock.

Thirty-seventh Ward—Thursday, the 4th Dec., at 10 o'clock.

Thirty-eighth Ward—Thursday, the 5th Dec., at 10 o'clock.

Thirty-ninth Ward—Thursday, the 6th Dec., at 10 o'clock.

Fortieth Ward—Thursday, the 7th Dec., at 10 o'clock.

Forty-first Ward—Thursday, the 8th Dec., at 10 o'clock.

Forty-second Ward—Thursday, the 9th Dec., at 10 o'clock.

Forty-third Ward—Thursday, the 10th Dec., at 10 o'clock.

Forty-fourth Ward—Thursday, the 11th Dec., at 10 o'clock.

Forty-fifth Ward—Thursday, the 12th Dec., at 10 o'clock.

Forty-sixth Ward—Thursday, the 13th Dec., at 10 o'clock.

Forty-seventh Ward—Thursday, the 14th Dec., at 10 o'clock.

Forty-eighth Ward—Thursday, the 15th Dec., at 10 o'clock.

Forty-ninth Ward—Thursday, the 16th Dec., at 10 o'clock.

Fiftieth Ward—Thursday, the 17th Dec., at 10 o'clock.

By order of the Court, J. NEWBURY, City Clerk.

City Clerk's Office, Belleville, October 22nd, 1880.

1st.—The Court will meet at 10.30 p.m. on each of the above evenings, and continue in session as long as there are appeals to be heard.

2nd.—The appeals for the different Wards shall be heard in the order in which they are fixed thereon.

3rd.—After the decision of the Court is pronounced in any case of appeal, the appellant shall be allowed, except in the case of manifest error, to appeal to the Court of Revision.

4th.—Parties appearing against any citizen or other person appointed by the Municipality for such purpose, as having been assessed to tax on account of real or personal property, or as having been assessed to tax on account of any other property, must appear before the Court.

5th.—In any case where a party complained against and added, as set forth in the previous rule, to the appeal, the appellant must appear before the Court.

6th.—All parties are required to attend the Court on the day named in the notice served upon them.

7th.—No appeal will be heard by the Court unless the proper notice has been given to the City Clerk within the time prescribed by law.

8th.—The Assessors will attend the meeting of the Court on each day as the appeals against the assessment will be heard.

9th.—That all persons giving evidence before the Court shall do so upon oath.

MEMBERS OF THE COURT.

David Holden, Chairman, Francis Wallbridge, G. D. Dickson, D. Robertson, A. A. Parry, James St. Charles, W. P. Niles.

By order of the Court, J. NEWBURY, City Clerk.

City Clerk's Office, Belleville, October 22nd, 1880.

GREAT COLLIERIES EXPLOSION.

A Terrible Disaster in the Albion Coal Mine, N. S.

Over Forty Lives Supposed to be Lost in the Pit.

Only a few of the Bodies as yet Recovered.

New Glasgow, N. S., Nov. 12.—At 6-30 o'clock this morning a terrific explosion occurred in the Albion coal mine, New Glasgow, N. S. Gas had collected in one of the levels, and it is supposed to have been ignited by a defective lamp. A full train of men, about one hundred and sixty, were in the pit at the time of the explosion. Those on the north side escaped, and were uninjured. About 40 men are still missing, and little hope is entertained of getting any of them out alive.

LATER.—The men and boys on the north side have been got up safely, though some of them were badly injured. The bodies of three men were recovered, and the rest of the bodies are still missing. The explosion was so violent that it was not until some time after the explosion that the bodies of the men were recovered. The explosion was so violent that it was not until some time after the explosion that the bodies of the men were recovered.

Matthew McPherson had charge of ten boys on the south side of the railway. They were all killed, and the bodies of the men were recovered. The explosion was so violent that it was not until some time after the explosion that the bodies of the men were recovered.

The explosion was so violent that it was not until some time after the explosion that the bodies of the men were recovered. The explosion was so violent that it was not until some time after the explosion that the bodies of the men were recovered.

MAN-HOOD
HOW LOST, HOW RESTORED

We have recently published a new
edition of Dr. J. C. Gilman's Col-
lected Essay on the radical and per-
manent cure (without medicine) of Nervous
Debility, Mental and Physical Impairment,
Impotency to Marry, etc., resulting from
excess.
Price, in a small envelope, only 6 cents,
by postage stamps.
The celebrated author, in this admirable
Essay, clearly demonstrates, from thirty years'
successful practice, that "Nervous Debility,"
may be radically cured without the
long and expensive use of medicine, and that
the application of the knife, pointing out a mode
of cure at once simple, certain and effectual,
by means of which every sufferer, no matter
what his condition may be, may cure himself
and be restored to his former health.
This Lecture should be in the hands of
every youth and every man in the land.

THE MARMORA GOLD MINES

(From the New York Engineering and Mining Journal, Nov. 13.)

When the cases are investigated which
have been giving the name of being
"extra hazardous" in an investment, they
will nearly always be found to be mines
purchased without that careful investigation
which business men would adopt in any
other investment, or else they are mines
controlled by a dishonest management.
This latter case of fraud can be avoided
by avoiding mining enterprises controlled
by men whose record is bad, and who have
been connected with questionable or dis-
honourable transactions.

Those who are considering an investment in
the public without the fullest information fur-
nished concerning the value and capabili-
ties of the property, are not to be considered
certified to be competent and reliable ex-
perts. Nor should the testimony of a
single expert, however distinguished, be
considered sufficient in cases involving
such large interests as a great mine; for
one man may be mistaken or may overlook
some points of importance. If a mining
property is thoroughly tested by compe-
tent experts, there is no more risk in invest-
ing in it than in any other business, while
the margin for profit is very much greater.

Those who are considering an investment in

Arrive from Hastings, Campbellville, and Stirling, at 10.30.
Trains run on Belleville time.
R. H. SRENNAN, Superintendent.
May 31, 1880.

MANHOOD: HOW LOST, HOW RESTORED.
We have recently published a new edition of Dr. Oliver's "Cure of Nervous Debility, Mental and Physical Impairment, Impediments to Marriage, etc., resulting from excess."
It is a real revelation, only 6 cents, or two postage stamps.
The unbalanced nature of this admirable, easily, clearly demonstrated, from thirty years' successful practice, that "damning" consequences may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effective, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.
This Lecture should be in the hands of every youth and every man in the land.
ADULTS: 25 CENTS.

THE TEMPERANCE.

The Temperance. The lowest tem-

perature which has been reached during

the present cold wave was early this morn-

ing, when the mercury sank to 3° below zero.

Last night 1° below was the lowest point

registered. This is the report of Prof.

Dawson, meteorological observer of this

district.

PRUDENT MANAGEMENT.—The County

Gravel Roads Committee met yesterday

afternoon, and closed the business of the

year. There was a very large amount of

work done during the season, but the com-

mittee is of opinion that the work has been

done in a prudent and economical man-

ner. The committee is of opinion that the

work has been done in a prudent and

economical manner. The committee is of

N.Y. WEBER PIANOS

WE HAVE opened our new store for the disposal of these pianos at 411 King St., Toronto.

We are informed several parties represent themselves as agents for the Weber Pianos. There are about half a dozen bogus imitations of this piano, sold by travelling agents through the country. The genuine Weber Piano can only be got through us, all others are FRAUD. Read the following letter:—

5TH AVENUE, NEW YORK

I have this day given to the N. Y. Piano Co. of Montreal, the exclusive agency of the Weber piano for the entire of Canada and British America, and any of my pianos and chassis must be through them.

Yours truly,
A. WEBER.

We do not employ travelling agents, but those who want the finest instrument, acknowledged by all leading musicians, can save money by addressing

N. Y. PIANO CO.,
228 St. James St. W., Montreal.
41 King St. West, Toronto.

—OR—
Messrs. KILGIBY, Hamilton.
DREW & SONS, Ottawa.
R. MORGAN, Quebec.

LAMPS AT COST.

Daily Intelligencer.

BELLEVILLE, WEDNESDAY, NOV. 24.
Hanlan's Refusal.

Some Canadian journals are expressing discontent because Hanlan has refused either to row Laycock in less than six weeks or for a smaller sum than thousand pounds a side. But such a feeling in both sports and business. Since the race with Laycock he has ceased training and has already got out of condition: indeed he himself has said that he has gained eight pounds in flesh since the race. Before the 15th, he was in proper condition for a race with such an opponent as Laycock, he would have to train this afternoon. Hanlan's tactics always have been to bring himself into condition gradually and easily, and if he thought it would take him six weeks to accomplish this his own satisfaction he was justified in insisting on fixing the proposed race for such a time. Then, as to the stakes which were proposed by the champion—rowed by Mr. Ward, his chief guide, philosopher and friend—they will not appear too high when it is considered how much Hanlan would have to lose by a possible defeat in the proposed race. He would not only lose the Championship of England, but the Championship of the World. With so much at stake, he would, in our opinion, be justified in fixing the stake money at even a higher figure than the thousand pounds. We hope he will never row a match race again for any small sum: it will effectively prevent anyone from challenging him except those who are thoroughly in earnest and who have some slight chance of defeating him. His reputation cannot be greater than it is now, and it would be foolish to endanger it by rowing for small amounts with opponents who are insensibly inferior to him in every quality of a seaman but who, through accident or the use of force, means, might defeat him. Those people who are criticizing Hanlan for not being willing to meet Laycock within a few days would be the very first to speak of him contemptuously, or, worse, to doubt his honesty, in case of his defeat by the Australian. The discontent, it may safely be said, is principally on the part of men who were in hopes of making a little "pot" by betting on the race. People who are not better will applaud the champion's resolution.

"Just Like Roger!"
A large number of newspapers follow in the lead of the Toronto organ of the party in telling one story in their editorial columns as to the state of the country, and another of quite a different kind in their news and commercial departments.

The Ottawa Free Press condenses this, however, as with astonishing effrontery it remarks in an editorial article:

"It is plain that we are engaged in a hopeless struggle for unless the cost of living is lowered, the rate of wages made as high as in the States Canada will never attain a position of comparative prosperity."

And in another part of the same column it remarks:

"It is to be found a valuable record of the trade of Ottawa for the season now ending. On the whole it shows a decided improvement on the previous season, and affords the promise of better things in the future."

N. P. NOTES.

The two set woollen mill of A. Code of Carleton Place, was sold last week for \$16,400 cash to John McLeod of Ramsey, a practical man, who is understood to be associated with James Gillies, of Carleton Place.

Business generally, says the *Expositor*, has not been so brisk in Almonte for a number of years as it is just now. All our factories are running full time and some of them overtime.

A number of knitting machines are being placed in position at T. A. Code's factory in Perth and the manufacture of all sorts of woollen hosiery will be begun. A good number of female operatives are to be employed.

Organs are to be built in Chatham, Ont. A building for the purpose has been rented in that town by Mr. John Morrish, who has associated with him a practical man from the Clinton organ factory.

Messrs. Bell & Co., of Guelph, have sent a number of organs to Ottawa, to fill an order recently received.

The effect of the N. P. upon the Nova Scotia coal trade has been remarkably beneficial. In 1879 the quantity sold in the Province of Quebec was 158,118 tons, an increase over 1878 of 70,405 tons. For the first nine months of 1880 the increase had gone up to 161,512 tons over 1879. A great deal of this coal has come to Ontario.

It is proposed to establish a cotton factory in Bowmanville.

To keep the bowels regular, the stomach healthy, the liver active, the kidneys free use Dr. Williams' Pink Pills for Pale People.

Editorial Notes.

A GENERAL ELECTION.

The Newmarket *Free Press*, which is probably the most complete and outspoken Reform journal in Canada, has published an editorial, expressed by some writers, that the bargain made between the Government and the Liberals for the construction of the Pacific Railway should be entirely to the profit of a general election, is absurd. Our contemporary argues that if such were done, side issues would be introduced by political friends, and the question in issue would be lost in the host of the general din and clutter. It concludes an able article by declaring that as Parliament has already adjourned, both political parties are thoroughly committed to the enterprise—the people, so far as a general election can furnish an index of public sentiment, have their opinion approved of what has been done in view of committing the country to the undertaking, and further expenses before getting the "elephant," off the hands of the country would be entirely unnecessary. We hope that the scheme securing the completion of the work at about the cost of the original estimate.

THE MINISTER OF CUSTOMS.

The *Mail* says: "Political gossip has of late connected the name of the Minister of Customs with several important positions. The last appointment to which he was named was that of the Minister of Customs. We do not believe there is any foundation whatever for that rumor, but its circulation has been in eliciting public opinion on Mr. Bowell's qualifications and political position. The *Windsor Times* says: "We should have freely expressed the appointment would meet with general approval." "Should he accept the position," says the *Expositor*, "it is an appointment that has ever been made would give greater satisfaction to all classes." It is gratifying to find one gentleman at least whose opinion would meet with general approval, because the late Minister of Customs was impossible to please the Manitobans, and it was they that Mr. Cauchon of his memory." We have reason to believe, however, that the Minister of Customs has been named for the position of Minister of the Cabinet, and any speculations based on his doing so are unwarranted by fact.

OIL ON THE TROUBLED WATERS.

Some very remarkable experiments at the entrance of the harbor, Port of Montreal, have been attended by very satisfactory results. Bottles filled with oil were sunk to the bottom of the harbor, in which the sea was breaking heavily, and there was a violent storm. The oil, which was in the bottles, was seen to rise to the surface it exercised an immediate and magical effect in smoothing the troubled waters. Instead of the waves breaking, the sea became quite smooth and glassy-looking and there was no more danger of the ships being wrecked. The oil was seen to rise to the surface it exercised an immediate and magical effect in smoothing the troubled waters. Instead of the waves breaking, the sea became quite smooth and glassy-looking and there was no more danger of the ships being wrecked.

THE STELLANTON DISASTER.

Various municipalities throughout the country are contributing towards the relief of the disaster occasioned by the terrible disaster which occurred in the Fjord of Stellarton, N. B., on the 10th inst. The report in support of this movement is in the hands of the committee in Stellarton, but it is to be hoped that steps will be taken to secure a contribution from this city towards so worthy a object.

THE OIL ON THE OCEAN.

The *Monday Times* says that the *Chronicle*, a New York newspaper, has brought together the number of reported accidents arising from the use of the petroleum in the States, within a few days, and they make a startling revelation. There are twenty-two so-called accidents, an average of one and a half a day, "involving a property loss of \$10,000, and a loss to insurance companies of \$25,500; inflicting irreparable pain, disfigurement and death upon the victims."

The Montreal *Free Press* says that the *Chronicle*, a New York newspaper, has brought together the number of reported accidents arising from the use of the petroleum in the States, within a few days, and they make a startling revelation. There are twenty-two so-called accidents, an average of one and a half a day, "involving a property loss of \$10,000, and a loss to insurance companies of \$25,500; inflicting irreparable pain, disfigurement and death upon the victims."

There are twenty-two so-called accidents, an average of one and a half a day, "involving a property loss of \$10,000, and a loss to insurance companies of \$25,500; inflicting irreparable pain, disfigurement and death upon the victims."

The Montreal *Free Press* says that the *Chronicle*, a New York newspaper, has brought together the number of reported accidents arising from the use of the petroleum in the States, within a few days, and they make a startling revelation. Daily Intelligence.

Nov. 24, 1880.

6 O'CLOCK EDITION.

City and Vicinity.

Nov. 24, 1880.

The noon express to-day was 20 minutes late.

Hansen is expected home about the 15th of December.

Two prisoners and one tramp occupied the cells last night.

The market is now well supplied with dressed beef and pork.

There was a large quantity of cordwood on the market to-day, selling at \$3.50 to \$4.00.

The four hours' delay of the noon express yesterday, was caused by a smash-up at Malton.

The little snow which fell yesterday afternoon and night, considerably improved the sleighing.

The fourth of Mr. Oldham's series of lectures on music will be delivered to-night at his residence.

The Trenton Courier office has been fitted up with new machinery. Hereafter it will be run by steam.

Honor School examinations will take place on Tuesday and Wednesday, December 21st and 22nd.

An exchange figures out that it is not Hanlan's good looks, but his winning ways, to which he is indebted for his popularity.

The wind shifted to the westward during the night. Now look out for the "cold wave" which the North-west is generally sending us.

Mr. Mahan has made an arrangement to run buses on the line of the street railway every 20 minutes, each way, from 8 a.m. to 8 p.m.

It is not probable that we will have a skating rink in Belleville this winter, as the Lorne rink will very likely be converted into a curling rink.

Mr. Orr, of the Trent Valley Advocate, has a neat little office in Trenton. His paper has already created a favorable impression, and is sure of success.

Several loads of barley were brought across the ice this morning. This is the earliest formation of the ice-bridge, for practical traffic purposes, on record.

The Ontario has one correspondent who wrote over the signature "Citizen," who is rather less able to comprehend a joke than a whale is to sing a comic song.

Mr. H. Corby, jr., received yesterday four cars of wheat from Toronto and four cars of corn from Chicago. To-day he ships one car of spruce and three cars of straw to Boston.

We have to thank Mr. Young, of the Trenton Courier, and Mr. D. R. Murphy, of Trenton, for information concerning the Trenton bridge, which they kindly imparted to us yesterday.

A young lawyer in town, unused to the ways of housekeeping, was last Monday asked "two pounds" by an English dealer in meat for a fore-quarter veal. It is said he paid it, though, as the vendor of the veal said, "it took his bloody bread away."

Mr. Wilson, fishery inspector, says that for the past forty-five years there has not been such a severe fall as that of this year. Yesterday was the forty-fifth anniversary of his wedding-day, and he remembers that his honeymoon was passed in just such weather as we have been experiencing.

An early hour this morning a small boat was run on a clothes line by S. H. Cronk and R. A. Vannor. The visit was unprofitable, however, the thief being surprised in the midst of his work by Mr. Vannor. He dropped his booty and fled.

TUESDAY, NOVEMBER 24.—A rule nisi for a new trial has been granted in this case.

ONTARIO LEGISLATURE.—The Ontario Legislature is summoned to meet on Thursday, Jan. 1st.

THE CARLETON SHERIFF.—It is announced that Sheriff Powell, of Carleton, has tendered his resignation.

THANKSGIVING DAY.—Today being Thanksgiving day in the United States, we are without our usual telegraphic despatches.

WEATHER PROBABILITIES.—Toronto Nov. 25.—20s. W. westerly to northerly wind; partly cloudy to cloudy continued cold weather, with areas of snow.

PERSONAL.—Mr. Edgar Pearce, County Clerk of the County of Peterborough, was present at the meeting of the County Council this morning, and was accompanied with a seat in the bar. Mr. Pearce is a brother of the Rev. of Marston and Lake.

DECEASED RELATIVES.—Three corpses are looked for next month, as follows: A partridge of the sun Dec. 1st; invisible. A total eclipse of the moon Dec. 19th; invisible. A partial eclipse of the sun Dec. 31st; visible. The latter will be visible about 3:30 a.m.

UNFORTUNATE.—Several of the fishermen on the bay lost the greater portion of their nets in the great gale of the 17th inst., and the nets lost all. The fishermen are in general poor men, and it would be a graceful act on the part of the Department to remit their license fees.

A WARNING.—A farmer was yesterday brought before the Police Court, charged with selling a load of cordwood in the city instead of having taken it to the market and paid dues upon the same. He was fined \$1 and costs. Let this be a warning to others who may be inclined to pursue a similar course.

CAUSE OF THE DELAY.—The cause of the delay of the Grand Trunk Express yesterday was a collision between two freight trains near Malton. The latter left the station so close to each other that the freight train ran into the first and a bad smash was the result. The passenger train from the west was delayed four hours and that going west two hours. A rail without a tie, and from Weston to clear the track. A brakeman had his leg bruised.

POLICE COURT.—There were three cases before the Court this morning. The first was a Swedish drunk named Knos; the second, who was allowed to go. He had already received sufficient punishment at the hands of a company of boys who had found him asleep on the ice and had tied him to a fence with a bar until he could not be distinguished from a Fiji chief. The case of Hobson, charged by Hunter with cruelty to animals, was enlarged till Tuesday; and boy, charged with stealing a door key, was discharged on account of his extreme youth.

COW BY-LAW.—The necessity for the enforcement of the Cow By-Law becomes more apparent every day. The owners of many of the miserable cows and calves which run about the streets daily ought to be prosecuted for cruelty to animals in turning such poor, shivering skeletons loose to wander about the streets and snatch a precarious living for themselves. Milk from such cows must be of the most unwholesome description—unfit, in fact, for the use of human beings, and we have no doubt that a good deal of sickness arises from its use.

THE GRAND JURORS.—The Hastings Star says: The work of ballasting the road to Peterborough, which is being done day and night, will in all probability, be examined by the Government Inspector of Railways to-day. It is expected that regular trains will be running about the tail of December, and from information which we have gleaned, the following are likely to be the running times of the trains: No. 1, Express, leave Belleville 7:30 a.m. Arrive in Hastings at 9:35; Peterboro' at 10:45. No. 3, Mixed, leave Belleville at 3 p.m. Arrive in Hastings at 4:40; Peterboro' at 7 p.m. No. 2, Express, leave Belleville at 8:30 a.m. Arrive in Hastings at 9:35; Belleville 11:45. No. 4, Mixed, leave Peterboro' at 3 p.m. Arrive in Hastings at 4:40; Belleville 7 p.m. Nos. 1 and 2 will cross here, and 3 and 4 at Camp Hill. The Carleton Express will cross with the Grand Trunk Express going east, due at 12:05; and with the mixed train going west, due at the same time.

A JUVENILE TRICK.—When Mr. Hopkins, pump agent, went to look up his place of business in Mr. A. L. Smith's block, Front Street, on Tuesday night, he found that the key was missing. He at once procured another lock and had it placed on the door. Yesterday morning he found tracks of small feet in the snow leading up to the door, and came to the conclusion that some one had stolen the key for the purpose of entering the premises and committing a robbery. At about five o'clock last night a person in the adjoining shop was a small boy approach the door, take the key from the lock, and put it in his pocket. He was at once arrested, and found that he had stolen the key. The boy, who lodged him in the cells. The boy, who lodged him in the cells. The boy, who lodged him in the cells.

A YOUNG LAWYER IN TOWN.—Unused to the ways of housekeeping, was last Monday asked "two pounds" by an English dealer in meat for a fore-quarter veal. It is said he paid it, though, as the vendor of the veal said, "it took his bloody bread away."

Mr. Wilson, fishery inspector, says that for the past forty-five years there has not been such a severe fall as that of this year. Yesterday was the forty-fifth anniversary of his wedding-day, and he remembers that his honeymoon was passed in just such weather as we have been experiencing.

An early hour this morning a small boat was run on a clothes line by S. H. Cronk and R. A. Vannor. The visit was unprofitable, however, the thief being surprised in the midst of his work by Mr. Vannor. He dropped his booty and fled.

A technical commission has estimated the cost of the new bridge over the river at \$100,000. Mr. de Leeuw has, however, by reducing some of the items, managed to bring the cost down to \$75,000, and still later, after the contractors had given in their estimate, he reduced it to \$100,000.

Further participants in a Fenian procession at Cork have been arrested for firing at the police.

On and after Tuesday, June 1st, 1880, Trains will run daily as follows:
Leave Belleville for Hastings, Campbellford, and Hastings, at 8.30 a.m.
Arrive from Hastings, Campbellford, and Hastings, at 10.30 a.m.
Trains are run by Belleville time.

May 31st, 1880. J. H. BARNES, Superintendent.

MANHOOD:

HOW LOST, HOW RESTORED

We have recently published a new edition of Dr. C. W. Farnham's celebrated Essay on the radical and permanent cure of Gonorrhea, Syphilis, and all venereal diseases, by means of a simple, certain, and effectual remedy, which is now being used by thousands of men who have been cured of these diseases, and who are now enjoying perfect health and vigor.

REMOVAL.
J. W. EAKIN, M.D., has removed his office and residence to Corner Fifth and Church Streets, Belleville, April 30, 1880.

Daily Intelligencer.

TWILIGHT'S HOUR.

The twilight on a starless eve,
In softest radiance bathed the sky,
The faded flowers the wind-crowns
Proclaim the evening twilight lady.

It is the hour when fancies roam,
A solemn silence round us lingers,
As we sit with thoughts that wander
We feel the touch of angel fingers.

It is the hour when lovers fond,
Ere love's in active arms embracing,
Dance and sing and laugh and play,
Gay garlands for the future weaving.

It is the hour when in the land,
The weary traveler, weary traveler,
Longer for the clasp of kind hands,
Lifts the dear home—sweetest in gloaming.

It is the hour when hushed hands,
And earth's mild music and laughter,
Chords which will melt when untuned years
Are stirred in the great harp of fate.

SORROW.
Upon my lips she laid her touch divine,
And the merry speech and careless laughter
She fixed her melancholy eyes on mine,
And would not be denied.

I saw the Wind visit her cloud in white,
In flocks, sweeping through the April air,
I could not sing, although my joy was high,
For she stood silent by.

I saw the quiet evening fade away,
A mist was lightly down upon the grass,
She broke my quiet dream—I heard her say,
"I am the twilight lady."

"Early dawn shall not satisfy you," said
This beauty of the world in which we live,
The crowning grace that satisfies the whole,
That I alone can give.

I heard and shrank from her afraid,
But still she held me and would still abide,
Youthful and old, and young and old, and old,
With softly smiling lips.

"Look thou away beyond the evening sky," she said,
"The changing splendors of the day,
Accept the pain, the weakness, the dream—
I am the twilight lady."

I turned, and clasped her close, with sudden gladness,
And softly, sweetly, I became aware
With my arms about her neck and head,
White-robed, and calm, and fair.

And now I look beyond the evening star,
The faint, the fading, of the day is past,
Knowing the pain, the weakness, the dream—
More beautiful than they.

—DUBLIN FRIGATE.

Wit and Humor.

Adam inaugurated the fall campaign.
Treading on a man's corns is a squeeze
on the Cathedral.

The Real One of Cologne—The debt on the Cathedral.
No matter how old a crow-bar may be,
It remains as good as new.

The man who "kissed his thoughts"
has done well if they all pay 100 cents on a dollar.

"That tree may be said to resemble the
fancy of a fine Havana cigar,"
The white ash.

The fact that the homeliest woman
always wins, was what broke up female walking
matches.

Some one who believes that "beauty is
the soul's countenance," writes, "Don't eat stale
Q-cubers. They'll hurt you."

There is an old proverb which reads: "As
the good man talks, so he says"; but as the good
woman talks, so she says.

A colored lady, boasting the other day of
the progress made by her son in arithmetic,
suddenly said: "He's in the mortification
column."

"What does a woman want to put on
her face in hot weather for?" asks a male
writer. Why, to keep her hand in.

A son without a FICKLE—Board-school
boys are shocked at the name of Fickle.
The Editor has invented a "lightning rod for
schools."

Obituary notice in a West
paper: "He was older in the Methodist
church, and the leader of the brass band."

There is one class of people who always
have leisure to entertain you, and that is
those who know more about your business
than you know yourself.

An Irishman living in an attic was asked
one day how he dwelt. "Shure, if I was
the first fire," was the reply.

Every young man who communes with
nature in solitude longs for the presence of
company, and that may tell her how
much a beautiful thing is solitude.

"Mr. Smith," said a lady at a fair, "won't
you please buy this bonnet for me?"
"Yes, if you love it," would he reply.

Mark Twain, lecturing of the Sandwich
Islands, offered to show how the cannibals
eat their food, if any lady would lend him
a spoon.

The lecture was well illustrated.
Josh Billings remarks: "The only way
to get through this world and escape
conscience is to keep your eyes shut."

They tried, says an American paper, to
fill a book agent at Omaha last week,
and failed. The book agent, it is said,
was so full of books, that he could not
take any more.

How do you like the new book?
The answer, in two hours, was that
the book was a failure. The book agent
was so full of books, that he could not
take any more.

It was a curious case, and the
book agent, it is said, was so full of
books, that he could not take any more.
The book agent was so full of books,
that he could not take any more.

It was a curious case, and the
book agent, it is said, was so full of
books, that he could not take any more.
The book agent was so full of books,
that he could not take any more.

A distinct and peculiar combination.
FELLOWS'
COMPOUND SYRUP OF
HYPO-PHOSPHITES

It contains the elements essential to the animal organism, the sustaining agents and tonic.
